Objectives

I am a passionate educator and artist interested in helping my students achieve. My primary area of interest lies in design, animation, and multimedia with an emphasis on technology, career, and life skills. I am excited about continuing my work in these areas. The idea of joining the art department at Bakersfield College and continuing to focus on this subject matter is intriguing .

Experience

Teacher **August 2003 – Present**

KHSD

I have held permanent teaching positions at Bakersfield High School and Stockdale High School. I am currently teaching graphic design and multimedia at Stockdale High School.

Teacher **August 2009 – Present**

KHSD

I have worked facilitating instruction and writing online lesson plans for a variety of programs for the Career Resource Department. I am currently teaching two programs for the CRD servicing clients ages 15 to 21.

Consultant- 2011, 2012, 2013, 2015

CTE Online/Butte County Office of Education

I have worked on 5 projects for cteonline.org designing model curriculum in the areas of Design and Animation. I have worked for cteonline.org creating this model curriculum in an online deliverable package.

Consultant- **2013-Present**

Carney's Technology

I facilitate an 8 hour workshop teaching technology and life skills for teen mothers receiving assistance from the Department of Human services. Workshops are held quarterly.

Experience-continued

Presenter-2015

CTE-Educating for careers Conference-Sacramento Convention Center

I presented 2 lesson plans that I created for cteonline.org. The lessons were on cut out animation and compositing, as well as motion graphics as art and art in the commercial space.
